

Wesdome Gold Mines is in its 30th year of continuous gold mining operations in Canada. The Company is 100% Canadian focused with a pipeline of projects in various stages of development. The position is at the Eagle River Complex, located approximately 50 km West of Wawa, Ontario. We are currently producing gold from the Eagle River Underground Mine and the Mishi Open Pit Mine.

Eagle River mine is currently looking for a Long Hole Planner to join his technical team.

Key responsibilities would be:

- Work in a healthy work environment
- Ensure that geological and survey data are updated prior to creating drill layouts
- Update long-hole layouts with actual drilling
- Design and produce long-hole drill&blast layouts as per standards. Adjust proper drill patterns and blast timing with vein shape
- Tabulate and report on total long-hole drill footage and tonnes blasted
- Complete reconciliation of long-hole stopes upon completion
- Prepare and issue backfill layouts as required
- Develop weekly plans and 3-month forecast based on the budget plan
- Ameliorate stope dilution
- Conduct weekly visits to all active stope
- Consult with planner and ventilation to ensure appropriate instructions are provided and meet design requirements

Qualifications:

- Mine Engineering Technician Diploma
- 1-3 years experience in underground mine
- Good with Promine (Autocad) and Excel (Microsoft Office Suite)
- Valid driver's license

Works Conditions:

- 8/6 or 4-3/5-2 rotation (day shift)
- Remote camp location, room and board (not a fly-in/fly-out)
- Competitive salary and career advancement opportunities
