

Environmental **Coordinator**

COMPANY INFORMATION

Wesdome Gold Mines is in its 30th year of continuous gold mining operations in Canada. The Company is 100% Canadian focused with a pipeline of projects in various stages of development. The Eagle River Complex is located approximately 50 km south of Highway 17 and 50 km West of Wawa, Ontario. We are currently producing gold from a central mill which processes ore from the Eagle River Underground Mine and the Mishi Open Pit Mine.

JOB DESCRIPTION & QUALIFICATIONS

Summary

The Environmental Coordinator is responsible for overseeing all the environmental aspects at the Eagle River Mine Complex, which includes the Eagle Mine and Mill, the Mishi Open Pit and the Magnacon Mine (closed). The Environmental Coordinator reports to the Mine General Manager and liaisons with the Director of Sustainability.

Responsibilities / Job Duties Performed

- Manage the environmental department in-line with Company's objectives.
- Ensure environmental compliance with all federal and provincial environmental regulations. Identify, assess, treat, and correct environmental issues and problems.
- Compile and review environmental compliance reports and ensure they are submitted to the government in a timely manner.
- Manage environment monitoring programs and the permitting process for the Site (i.e., new and existing properties).
- Manage the environmental emergency response plans.
- Work collaboratively with different consultants in the realization of different projects, studies, audits and reports. Follow up to ensure that time lines are met and projects are completed within budget.
- Work with government agencies to ensure site compliance and maintain a good relationship with them.
- Work with the all departments to maintain and update as necessary the respective environmental compliance-monitoring plans.
- Guide the implementation of environmental systems, procedures and policies and ensure all regulatory/legal compliance requirements are strictly adhered to and covered in the Site's Standard Operating Procedures.

- Update the environmental Standard Operating Procedures as necessary.
- Review environmental audits to ensure that the operational plans continue to meet the overall environmental strategy.
- Provide environmental assistance to all projects underway for the site.
- Ensure relevant environmental training is provided as needed.
- Manage the water quality and quantity in the mill Tailings Management Area and the treatment of this water to ensure there are no compliance issues with respect to discharge water quality and discharges out of the normal course of events.
- Assist with Community (local and indigenous) Engagement and with Public Consultation.

Qualifications

- University degree in Environmental Engineering or Science, Earth Sciences or related degree.
- 5 years of environmental and mining related experience with 2 years of experience in supervision.
- Excellent knowledge of Provincial and Federal Acts and Regulations.
- Good understanding of the mining and milling processes and their environmental effects.
- Must be able to maintain a high level of confidentiality.
- Ability to mentor technical professionals in a direction that honours their goals and the company requirements.
- The individual must demonstrate a high level of energy, self motivation and strong organizational skills.
- Excellent inter-personal skills together with an ability to facilitate commitment to a cooperative team effort.
- Good communication skills, both orally and written.
- Ability to work with all levels of the organization.

LOCATION OF ROLE

The selected individual will be located at the Wesdome Eagle River Complex (see location in Company Information). This is a Mine camp environment and the schedule will align accordingly.

- Working schedule is on 4-3 and may vary, days only.
- Outdoor work on occasional basis.
- Remote camp location, room and board.

We wish to thank all applicants for their interest and effort in applying for the position; however, only candidates selected for interviews will be contacted.
