Policy on the Scope of Services of the Auditor and Hiring Practices for Auditor Engagement Team

Wesdome Gold Mines Ltd. (the “Company”) has established parameters for the engagement of the Auditor consistent with the Company’s corporate governance expectations and applicable law. These parameters cover all work that might be performed by the Auditor through engagements with the Company.

Definition of Auditor

The term Auditor refers to the firm of accountants that is appointed to perform the audit of the consolidated financial statements of the Company.

Part One - Scope of Work and Authorization Standards

All work performed by the Auditor for the Company will be pre-approved by the Audit Committee. The Audit Committee may delegate authority to pre-approve such work to any one member of the Audit Committee, provided that any work so pre-approved must be ratified by the full Audit Committee at the next meeting of the Audit Committee.

The Audit Committee will update the list of “pre-approved services” in respect of the Auditor and add any services that are recurring or otherwise reasonably expected to be provided. In addition, any specific services from this list for which the Auditor is engaged, where the aggregate fees are estimated to be less than or equal to \$10,000, will be submitted to the Chief Financial Officer for approval. The Chief Financial Officer will notify the Chief Executive Officer and Chair of the Audit Committee of the service being engaged immediately. The Audit Committee will be subsequently informed at each regular meeting of the services on the “pre-approved services” list for which the Auditor has been actually engaged since the previous meeting. Any additional requests for pre-approval for services not on the “pre-approved services” list or where the aggregate fees are in excess of \$10,000, will be addressed on a case-by case specific engagement basis.

In the event that a non-audit service is provided by the Auditor that was not recognized at the time of the engagement to be a non-audit service, such service must be brought to the attention of the Audit Committee or its delegate for approval.

The Auditor will only perform audit, audit-related and tax work. Definitions of “audit”, “audit-related” and “tax work” are included below.

Categories of Work	Examples of Services
Audit	All services performed to comply with Generally Accepted Auditing Standards or International Financial Reporting Standards, as applicable.
Audit-related Services	<p>Assurance and related services performed by the Auditor that are reasonably related to the audit or review of financial statements, including among others:</p> <ul style="list-style-type: none"> • employee benefits plan audits; • due diligence related to mergers and acquisitions; • accounting consultations and audits in connection with acquisitions; • internal control reviews; • attest services not required by statute or regulation; and • consultation regarding financial accounting and reporting standards.
Tax Work	<p>All services performed by professional staff in the Auditor's tax division, except for those services related to the audit. Tax fees typically include:</p> <ul style="list-style-type: none"> • tax compliance; • tax planning; and • tax advice.

Annually, when the Auditor presents its audit plan for the year, the Audit Committee will pre-approve other proposed services the Auditor has been asked to provide in relation to the current fiscal year. Services outside of these annual activities will be brought to the Audit Committee for approval.

The Audit Committee may approve exceptions to paragraph (3) above when it determines that such an exception is in the overriding best interests of the Company and it is determined that such an exception does not impair the independence of the Auditor. However, certain non-audit activities are generally prohibited and generally will not be considered for exception from this policy. These non-audit activities include:

- bookkeeping or other services related to the accounting records or financial statements of the Company;
- financial information systems design and implementation;
