**WESDOME GOLD MINES ANNOUNCES THIRD QUARTER
FINANCIAL RESULTS**

Toronto, Ontario – November 9, 2015 – Wesdome Gold Mines Ltd. (TSX: WDO) today announces financial results for the third quarter of 2015. All figures in the release are stated in Canadian dollars unless otherwise noted.

Mr. Rolly Uloth, President and CEO commented, “Wesdome made significant progress during the third quarter both on current operations optimization and planning future growth at the Eagle River Complex. Production costs have decreased quarter over quarter this year, while mill production has steadily increased. With the 300 Zone now in production, we expect this trend to continue in the fourth quarter and into at least 2017 when the 7 Zone begins production. We also enhanced our board with the addition of Charles Page, and appointed a new Chief Financial Officer. With the balance sheet strengthened by a \$5 million private placement subsequent to quarter end, the Company plans on increasing its exploration budget at the Eagle River complex in the near term.”

PRODUCTION

- Eagle River mill throughput increases for the fifth consecutive quarter
 - Total tonnes processed during the quarter was 88,185 tonnes or 959 tonnes per day (“tpd”) for the quarter. This represents a 6% increase from Q2 2015 (908 tpd) Q3 2015 throughput improved 64% from Q3 2014 (583 tpd)
 - YTD mill availability is at ~88%, up from 74% in 2014 and 66% in 2013
- Produced ounces increased 14% from Q2 2015
 - Combined production of 14,284 ounces
 - Eagle River Mine produced 44,849 tonnes at a head grade of 7.7 gAu/tonne with mill recoveries of 96.1% to produce 10,637 ounces (7.4 gAu/tonne recovered grade)
 - Mishi Mine produced 43,336 tonnes at a head grade of 3.0 gAu/tonne with mill recoveries of 88.2% to produce 3,647 ounces (2.6 gAu/tonne recovered grade)
- Production at the 300 Zone commences
 - Head grades for the month of September increased to 9.0 gAu/tonne, 23% higher than 2015’s year to date average of 7.3 gAu/tonne

The Company has included non-GAAP performance measures: mine operating profit, operating cash flow per share, free cash flow, free cash flow per share, production cost per ounce and all-in sustaining costs in this press release. These are common performance measures in the mining industry which do not have any standardized meaning under IFRS. Refer to the Q3 2015 Management Discussion and Analysis for the reconciliation of these measures to the financial statements.

PRODUCTION EXPANSION

- During the quarter, the Company announced production guidance for years 2016 – 2019, based on a CAD\$1,450 gold price. Guidance for these years are as follows:
 - 2016: 54,000 – 60,000 ounces
 - 2017: 63,000 – 70,000 ounces
 - 2018: 74,000 – 82,000 ounces
 - 2019: 72,000 – 80,000 ounces
- Capital projects relating to expansion include: increasing mill capacity to 1,500 tpd, and the construction of a new tailings facility
- Over the course of 2016 and 2017, the Company plans on doubling its Mishi Open Pit ore concurrently with the construction of expansion capital projects to approximately 20,000 ounces per year. The high strip ratio during the early life of the pit is essentially complete, which will contribute to significantly lower mining costs
- Production for the underground Eagle River mine will increase year over year, with larger increases coming from the mine's three known high grade zones, the 300, 811, and 7 Zones

EXPLORATION

- Drilling 300m west of Mishi Mine cuts to 10.4 gAu/tonne over 18.4m true width at shallow depth. The 2015 drill program is providing the information required to direct and guide future production expansion opportunities
- The Eagle River Underground Mine's three known high grade zones are open up and down plunge and along strike and will be aggressively explored by the Company

APPOINTMENT OF NEW DIRECTOR AND CFO

- In July 2015, the Company appointed Charles Page, P.Geo to the Board of Directors. Mr. Page is a professional geologist with over 30 years' experience in the mineral exploration and mining industry. Most recently, he was president and CEO of Queenston Mining, leading the discovery and development of the Upper Beaver deposit in the Kirkland Lake Gold camp until Queenston's acquisition by Osisko Mining. He is currently a director of Osisko Gold Royalties Ltd. and Unigold Inc. Mr. Page holds a Master of Science degree from the University of Waterloo. In addition to this wealth of experience the Company also plans to leverage his experience in the Eagle River camp as his team was credited with the discovery of the No Name Lake Zone on this property
- On September 16, 2015, Brian Ma, then Chief Financial Officer of the Company, tendered his resignation as CFO and was replaced by Hemdat Sawh, CPA. Mr. Sawh is a Certified Professional Accountant, and holds an MBA degree in accounting from York University, a BSc degree in geology from Concordia University and a graduate diploma in geology from McGill University. Mr. Sawh has over 16 years of accounting and auditing experience at Grant Thornton LLP, culminating in the position of principal with a concentration in publicly listed mining companies. Mr. Sawh served as Chief Financial Officer for several TSX listed mining companies with operations in Mexico, Venezuela and Burkina Faso

ADDITIONAL DISCLOSURE PURSUANT TO FORM 58-101F1

In accordance with the disclosure requirements set out in National Instrument 58-101 *Disclosure of Corporate Governance Practices*, specifically as it relates to the Company's gender diversity disclosure in accordance with the requirements set out in Form 58-101F1 *Corporate Governance Disclosure*, the Company has provided additional disclosure in its MD&A regarding its practices in respect of director term limit, the representation of women on the board and in executive officer positions. The Company has neither adopted term limits for directors, nor a diversity policy or targets regarding the representation of women on the board or in executive officer positions, however the Board considers diversity, including gender, age, experience, education, race and national origin, to be essential to a high functioning board and management team. The Board is committed to advancing women and other individuals representing a diversity of backgrounds into leadership roles through mentoring, continuing education and succession planning processes. Furthermore, in October 2015 the Company engaged an independent, external corporate governance advisor to evaluate its existing governance practices. Upon conclusion of such evaluation, the Board will consider the need for a formal written diversity policy and other measures that will facilitate continued improvement of the Company's diversity practices.

ABOUT WESDOME

Wesdome Gold Mines Ltd. is in its 28th year of continuous gold mining operations in Canada. The Company is currently producing from its Eagle River and Mishi gold mines in Wawa, Ontario, which have earned consistent free cash flow during times of low gold prices. Wesdome's corporate goal is to build a profitable, long-life, sustainable gold mining Company with modest initial capital costs. This strategy has enabled the Company to acquire strategic property and infrastructure assets in two politically stable and historically proven mining camps. Wesdome has significant upside through ownership of its two other properties, the Kiena Mine Complex in Val d'Or, Quebec and the Moss Lake gold deposit located 100 kilometres west of Thunder Bay, Ontario. These assets are being explored and evaluated to be developed in the appropriate gold price environment. The Company has approximately 116 million shares issued and outstanding and trades on the Toronto Stock Exchange under the symbol "WDO".
